**STANDING ORDER NO. 05/2016**

*Sub: Project 'e-SAMPARK' – Implementation of standardized official communication through website, e-mail & SMS in the Custom House, Visakhapatnam – reg.*

\*\*\*\*\*

Communication among the departmental officers and between departmental officers and Trade/ Importers/ exporters/ stakeholders is one of the most important facets of tax administration. Fast, reliable and standardized channels for official communication go a long way in enhancing office productivity and also ease citizen's interaction with the department. It is for these reasons that the effective use of electronic means of communication such as 'website', 'e-mail', 'SMS' etc. has assumed tremendous significance in the recent times.

1.1 Keeping the above in mind and for optimal use of Information and Communications Technology (ICT) for official communications, this Custom House has conceptualised Project 'e-SAMPARK'. Through this standing order, the same is implemented in all offices coming under this Custom House.

1.2 As part of 'e-SAMPARK', it shall be noted that both the sending office/ officer/ section and receiving office/ officer/ section will take a print of e-mail sent/ received and place the same in file for record or for further processing. The key difference now would be that the *transmission* of message/ text/ documents will be electronic via e-mail and no hard copy follows except in specified exceptional circumstances listed in this order, the most important exception being communication of decisions, orders, summons or notices etc. issued under the provisions of the Customs Act, 1962 which shall be sent by registered post with acknowledgment due / speed post as per section 153 of the Customs Act, 1962.

1.3 In the scheme of e-mail communication, the users are identified by their 'e-mail ID'. In the case of 'designation-based' NIC e-mail ID's taken for all Group - A officers and sections/ offices in the Custom House, at any given time, the account is mapped to a single officer holding that designation. At the time of initial log in, the user is also required to fill up

the detailed profile (name, address, date of birth, date of retirement etc.). The name of the officer currently holding the account, as given in the profile, will also be displayed along with the designation-based mail ID. Further, each e-mail sent is dated and time-stamped. Every page of NIC mail, when printed, bears the date of printing (on top left corner), page number (bottom right corner) and a unique URL (on top and bottom of each page). These security protocols built in official e-mail applications obviate the need for physical signature. Hence, once an e-mail is sent from a particular mail account, it is deemed to have been 'signed' and sent by the officer holding that mail account. The mail & attachments, if any, so received in recipient's inbox and printed true copies of the same (which clearly bear the subject, names and mail ID's of sender and receivers, date and time of sending, date of printing etc.) constitute proper official communication by the sender. These can be put up in file for record or for further processing, just like signed papers received through fax/ speed post.

1.4 Further, all the other official procedures presently to be followed in offices under CBEC, including those prescribed under Office Procedure Manual (OPM), Sevottam etc., shall continue without any change.

1.5 The general information and common procedures applicable to all channels of official e-mail communication are given as **Annexure-A**. All officers are hereby directed to go through this section thoroughly as it explains the fundamentals of official e-mail communication.

1.6 The Standard Operating Procedure (SOP) to be followed for each communication scenario/ channel in the Custom House is prescribed as under:

**(ii) However, all decisions, orders, summons or notices etc. issued under the provisions of the Customs Act, 1962 shall be sent by registered post with acknowledgment due / speed post as per section 153 of the Custom Act, 1962. There shall be no change in this statute-mandated procedure.**

(iii) Updated contact directory along with official e-mail ID's of all officers/sections is published on our website: [www.vizagcustoms.gov.in](http://www.vizagcustoms.gov.in) > *Contact Us*

(iv) In 'e-SAMPARK' scenario, any official communication through other than e-mail, viz., fax/ post/ hand delivery shall be resorted to only in the following cases, with the prior approval of AC/DC of concerned Section/ CFS/ Docks, in each case (except 'A'):

- A. **All decisions, orders, summons or notices etc. issued under the provisions of the Customs Act, 1962 (GENERAL EXCEPTION)**

- E. Both NIC and ICEGATE mail servers are not working;

- G. Any other case permitted by AC/DC, for specific reasons to be recorded in file.

**2. Even in the e-SAMPARK scenario, it shall be noted that both the sending office /officer/ section and receiving office/ officer/ section will take a print of e-mail sent/ received and place the same in file for record or for further processing. The key difference now would be that the transmission of message/ text/ documents will be electronic via e-mail and no hard copy follows except in specified exceptional circumstances listed in this order, the most important exception being communication of decisions, orders, summons or notices etc. issued under the provisions of the Customs Act, 1962 which shall be sent by registered post with acknowledgment due / speed post as per section 153 of the Customs Act, 1962. Further, all the other official procedures presently followed including those prescribed under Office Procedure Manual (OPM) and Sevottam shall continue without any change.**

3. **(i) The text of the message/ letter shall be typed in ‘BODY OF MAIL’ itself, i.e., below the letterhead and above signature/ sender’s details. Sending editable letters in MS word as attachments shall be avoided.**

(ii) Forwarding scanned copy of letter signed by AC/ DC also can be an option. But, this process will consume more time and manpower for proper scanning and uploading of files, more web space in terms of attachment file size and is contingent on compulsory availability of a functional scanner at all times. **Hence, scanning and attaching files shall be resorted only in case of letters/ annexure received in paper and which are not available in soft text form.**

4. In the body of the mail, proper official bilingual letterhead **at the top** and ‘signature’ (*sender's name, designation, full postal address, office Phone No.*) **at the end** shall be inserted.

Such a letterhead and ‘signature’ can be easily **added automatically at the end of each new mail** by following below process:

Open NIC mail > **Options (left bottom on screen) > Identities > Local Account > You can add your letterhead/ sender details; You can also edit the ‘DISPLAY NAME’ that accompanies your designation-based mail ID.**

Print out of such a mail with letterhead and sender’s details will almost look like an official letter, a model of which is given at the end of this annexure.

5. While adding recipients, abundant care should be taken to type mail ID’s accurately to avoid mailer daemons.

6. In urgent cases, receipt of mail by recipient shall be confirmed over phone also.

7. While sending urgent/ important mails, one can receive immediate confirmation alert that the message is successfully delivered/ read. To receive such confirmation, follow below steps:

- a. *When you compose your message, click the **Options** icon in the top toolbar.*
- b. *The expanded message icons are shown.*
- c. *From the **Receipt:** drop-down menu, select the type of return receipt that you want to request.*
- d. *The drop-down menu displays the following options:*
  - ***None:** No receipt is returned.*
  - ***Read:** Receipt is returned when the message is read.*
  - ***Delivery:** Receipt is returned when the message is delivered.*
  - ***Read and Delivery:** Receipt is returned when the message is both read and delivered.*

- e. *When your recipients receive your message, they are asked to verify that they have received it.*

8. Important or pending mails which needs further follow up can be easily COPIED into a separate folder. This folder (e.g., named as 'FOLLOW UP') can be checked from time to time for following up important/pending mails.

**To create a new folder:**

2. *Click **New Folder** from the menu. The **Create Mail Folder** dialog box appears.*
3. *Enter a name for the folder in the **New folder name** field and click **Create**. An empty new folder is created below the System Folder.*

9. Any officer going on leave must ensure the following in sufficient advance:

**When going on leave for upto 10 working days:** Enable vacation message by selecting OPTIONS > Local Account > Vacation Message > Check 'Enable Auto reply' box > give start and end date of your leave > Add message: ***"I'm on leave and returning on..... Please contact my link officer at the mail ID:..... & Phone No....."***

**When going on leave for more than 10 working days:** Officer going on leave shall map the mobile number of link officer to the mail account. This mail shall be copied to link officer also for information.

10. (i) The syntax of the 'subject' field should be meaningful and self-explanatory: e.g., in case of mails from Various Sections to HQR's, ***'Section Name – Full Subject/ description of the mail / report'***, e.g., *Sravan CFS – Report for the month of May, 2016*

(ii) The attachments in the mail also need to be named appropriately as indicated above for easy identification and reference in HQR's.

(iii) Casual and generic naming of files, e.g., 'MPR', 'report' etc. shall be avoided as this will create confusion at the receiver's end and makes future reference difficult.

(iv) The font, 'Times New Roman', size 12 shall be used as standard font in all text sent in MS Word/ Excel files and body of the mail. This uniformity is of great utility while consolidating reports for preparing brochures etc.

11. Since NIC e-mail ID's are designation-based and given only one for each section, the question may arise reg. (i) officers not mapped to NIC mail ID's and (ii) scenarios such as a section having multiple superintendents.

Where there are more than one superintendent in a section (*e.g., RI&I, Bonds, Legal, etc.*), one of the Superintendent will be assigned to handle the e-mail correspondence.

Superintendents/ Appraisers and inspectors who are not given NIC mail ID's shall use their ICEGATE mail ID for official communications within section or between sections.

12. As an Eco-friendly measure to conserve paper, it is advised that 'back-to-back/ print-on-both-sides' mode shall be enabled by default and for all office copies' prints, 'one-side used' pages can be used.

13. Mails received in 'INBOX' and 'SENT' mails shall not be deleted by any officer under any circumstances.

14. To access live mail account, internet connection is a must. However, there is a facility for offline storing of mails also, i.e., automatic saving of outgoing and incoming mails on one's computer. The detailed step by step procedure as to how to configure your NIC mail account with MS Outlook Express etc. on your computer is available at these links: <https://mail.nic.in/docs/POP.pdf>, [http://webmail.nicsys.net/email\\_settings/Outlook-Express-Setup.pdf](http://webmail.nicsys.net/email_settings/Outlook-Express-Setup.pdf)

#### **16. For creation of any new NIC mail ID:**

- a. Take approval of AC/ DC.
- b. Send an e-mail to SPOC attaching an excel file with below details:

Sl No	Designation / Official position	Full Name	Department, Ministry, [State Name]	Preferred Email ID ( <i>e.g., acgjwdiv.cxkk d-ap@gov.in</i> )	Date of Retirement	Mobil e No.

- c. Superintendent (EDI) will forward the new mail account request to NIC;
- d. NIC creates mail account;
- e. The concerned officer will be informed through SMS about the creation of mail ID and initial password;
- f. With user name and initial password, log in at [www.mail.gov.in](http://www.mail.gov.in)
- g. On first login, fill up the profile and change the password
- h. Start using the mail account.

#### **17. ON JOINING OF NEW OFFICER - MAPPING NEW MOBILE NO. TO NIC MAIL ID:**

**Each designation-based NIC mail IDs are mapped to mobile no. of respective Section Head. Password can be changed/ re-set using the OTP received on the mobile SMS.**

18. Official e-mail ID, fax number and telephone number shall be included prominently in every letterhead.

19. NIC account will be deactivated, if not used for 90 days.

20. NIC Email id will be deleted after a period of 9 months from the date of deactivation if no request for activation is received.

21. Contact NIC 24x7 support if you have any problems in using NIC mail at Phone 1800 111 555 or you can send mail to [support@gov.in](mailto:support@gov.in)

### SOP for communication between Customs offices at CFS/ Port/ Terminal and the Custom House

A. All the basic principles & common procedures applicable to all official e-mail communication scenarios, as prescribed in Annexure-A shall be noted and followed scrupulously.

B. In CFS/ Terminals/ Ports, while sending letters/ reports etc. to Custom House, the present practice is that the draft report/ enclosures along with covering letter will be put up to AC/ DC for note approval at LHS and signature on letter at RHS. After signature of AC/ DC, the letter is forwarded to the Custom House.

C. In the NEW 'e-SAMPARK' scenario, the following steps are prescribed:

1. NIC mail ID's given to sections of each Custom Offices at CFS/ Port/ Terminal are hereby designated as the e-mail ID's to forward any reports and other communications to Custom House. If there are more than one superintendent in CFS/ Port/ Terminal dealing with different subjects/ jurisdictions, one will be designated as Nodal officer for NIC e-mail ID allotted to that CFS/ Port and only he/ she will forward all the correspondence to the Custom House.
2. In every file, concerned Supt./AO will put up to AC/ DC, ONLY draft report (data in tabular form etc.) or draft text of communication at RHS (Correspondence side), with following remark at the end of noting: ***"If approved, the communication/report will be sent to HQR's by official e-mail"***.
3. AC/DC, after perusal of the same, puts his signature at the end of draft report/text at RHS and on LHS (Note sheet), in token of approving the draft.
4. If AC/DC feels that the draft has to be modified, he/she sends back the file with corrections in the draft text (at RHS) and signs at note side (at LHS) with a remark to put up revised/corrected draft.
5. (i) Once final approval is given thus by AC/DC, the concerned supt./AO will forward the communication text/ report/ enclosures by NIC e-mail to official e-mail ID of concerned section in the Custom House with a mention at the end: ***"This issues with due approval of AC/DC in file no..."***  
 (ii) While sending every mail to Custom House, a copy of the same shall be marked to AC/ DC in 'CC' mode. This is for his information and also to confirm the time of sending and to cross-verify that only the approved text was sent.

 (v) The attachments in the mail also need to be named appropriately as indicated above for easy identification and reference in the Custom House. Casual naming of files, e.g., 'MTR', 'report' etc. shall be avoided as this will create confusion at the receiver's end.  
 (vi) The font, 'Times New Roman', size 12 shall be used as standard font in all text sent in MS Word/Excel files and body of the mail.

- (vii) At the end of mail, full name, designation and contact number of the sending officer shall be indicated. This can be easily auto-inserted every time using 'SIGNATURE' option in the mail. For details, see Mail FAQ's appended.
6. In responding to important communications or DO letters issued from the Custom House, directly under the signature of the Principal Commissioner, the e-mail shall be sent by the AC/ DC directly from his official mail ID to Pr. Commissioner and JC/ ADC, duly marking a copy to relevant section supt. in HQR's. In all other cases, e-mail shall be sent directly by concerned Supt./ AO as prescribed above with due approval of AC/ DC in every case.
  7. Only those e-mails which are sent from CFS/ Port/ Terminal's designation-based NIC mail ID's will be treated as sent from them.
  8. In urgent cases, receipt of mail in the Custom House shall be confirmed over phone also.
  9. The 'sent' mail will then be printed by the concerned Suptd./ AO using PRINT option available in the mail and the copy will be placed in file for record. This serves as office copy. There shall be no parallel communication of letter by speedpost or fax.
  10. On receipt of the mail, concerned section Supdt. in the Custom House will take a print out of the same and puts up in relevant file. The same will be used for compiling Custom House level report or put upto AC/ ADC/ Pr.Commr., as the case may be.
  11. **Forwarding scanned copy of covering letter signed by AC/ DC also can be an option. Ans: It is important to know e-mail addressing basics.

If you want to address 'A', type his/ her mail ID in 'TO' field.

If you want to inform 'B' & 'C' that you have sent the mail to 'A', type the mail ID of 'B' & 'C' in 'CC' (**carbon copy**) field.

If you want to address mail to A, B, C at once but don't want each of them to know the mail ID of other two (e.g., while sending bulk mails to Trade/ stakeholders etc.), type all mail ID's in 'BCC' (**blind carbon copy**) field. B. You can edit your DISPLAY name (which accompanies your mail ID and seen by recipients)

C. In signature field, you can add the whole of your letterhead.

Open NIC mail > **Options (left bottom on screen) > Identities > Local Account > You can add your letterhead/sender details; You can also edit the ‘DISPLAY NAME’ that accompanies your designation-based mail ID.**

**Q. [www.mail.gov.in](http://www.mail.gov.in) website not working. How should I send official mails?**

Ans: Try logging at <https://mail.eis.ernet.in>

If this website is also not working, use your ICEGATE mail to send official mails.
