

**OFFICE OF THE PRINCIPAL COMMISSIONER OF CUSTOMS  
CUSTOM HOUSE, PORT AREA, VISAKHAPATNAM- 530035**

---

**F. No.S2/06/2015-EDI**

**Dated:12.05.2015**

**PUBLIC NOTICE NO:12 /2015**

**DIGITAL SIGNATURE CERTIFICATE (DSC) IMPLEMENTATION IN FILING  
DOCUMENTS THROUGH REMOTE E.D.I. SYSTEM(RES)-REGARDING**

All Importers, Exporters, Customs Brokers, Shipping Lines, Airlines or their agents who are authorized to file document (BE/SB/IGM/EGM/CGM etc.) through Remote EDI System (RES) are advised to use valid Class – III Digital Signature Certificate issued by any Certifying Authority (CA) under CCA-India (list of CAs available at [http://www.cca.gov.in/cca/?q=licensed\\_ca.html](http://www.cca.gov.in/cca/?q=licensed_ca.html)) and sign documents with the help of web-based Common Signer Component available at ICEGATE website.

2. Digital Signature for filing Customs documents-Bills of Entry, Shipping Bills, IGM, EGM and CGM etc. has been introduced w.e.f.01.04.2015. For ACPs, it would be mandatory from **1<sup>st</sup> May 2015**. For others also soon it would be mandatory to submit digitally signed Customs documents at ICEGATE. Therefore, all concerned are requested to start submitting digitally signed documents as soon as possible to avoid eleventh hours glitches or any rejection of documents at ICEGATE level. For help of the trade, a Common Signer, Advisory, Demo and Process Document have been placed at ICEGATE website under **Digital Signature** link

3. Keeping in view the different platforms of RES utilities deployed by users and to avoid delay in submission of documents at ICEGATE, web-based Common Signer utility access has been provided to the users across the country free of cost through ICEGATE website for signing all the Customs Documents. The Common Signer utility however would be developed & installed at CA's website. The following are the key parameters of the common signer utility:

- \*Web-based Common Signer freely available to all the users through ICEGATE portal supported by M/s (n) Code solutions.
- \* It is a platform independent and verifies user's DSC validity, online CRL checks etc. at the time of signing.
- \* This component may be used with any valid Class – III DSC issued by any CA under CCA-India.
- \* Person authorized for signing documents shall use DSC in his name and execute signing process as specified under flow-diagram.

Contd.....2

4. On receiving the digitally signed documents the ICEGATE server side verifier shall verify the user's credentials, validity of certificate, CAs credentials, Public Key, CRL status and Hash Value of certificate and integrate the data with ICES database.

5. It is envisaged that implementation of Digital Signature for individual users shall bring following benefits to the trade and customs brokers:

\*Authenticity of users and credentials of ACP clients etc. or reputed importers/exporter shall not be compromised.

\*It will maintain Integrity of data transmitted electronically.

\*It will ensure Non Repudiation of information at letter stage.

\*It will prevent impersonation and frauds.

6. In case the users face any issue in signing the documents they may contact the following numbers or may e-mail at the e-mail ID specified below:
